Dear [REDACTED]

Congratulations!

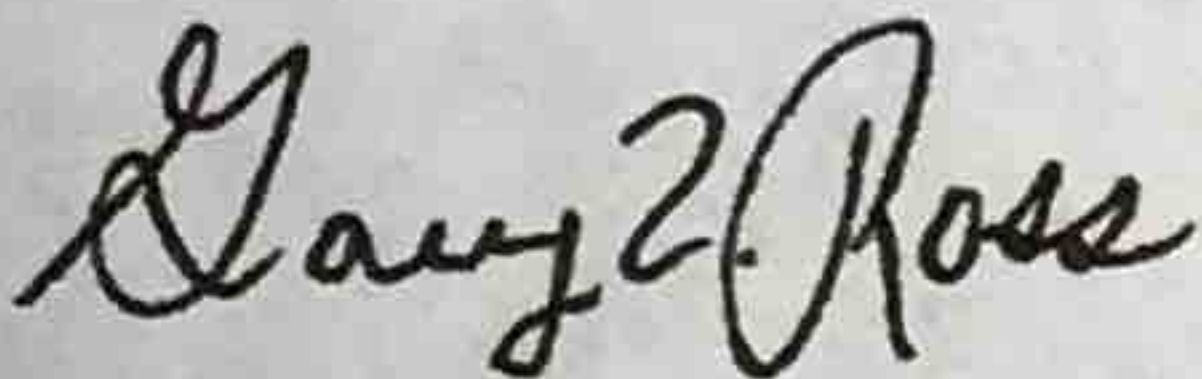

It is a thrill and privilege for me to extend to you a warm welcome into the Colgate University family. I am delighted to offer you a place in the Class of 2022, which will enter Colgate in August 2018. The admission process this year was highly competitive, but we were impressed by your accomplishments. Colgate's faculty, administration, and students are excited about the contributions you will undoubtedly make to our community.

To commit to Colgate, you can complete the Admission Reply Form and submit your enrollment deposit through your status page. Our offer of admission presumes you will continue to be in excellent standing, both academically and personally. Should there be any decline in your academic or personal record, the offer of admission may be reviewed. We must receive an official final transcript to complete your enrollment at Colgate. Additionally, if you have not yet submitted official ACT or SAT scores, we must receive those in order to confirm your enrollment.

Once again, congratulations! We believe that you have great potential, and we genuinely hope that you will realize that potential at Colgate. We are confident that you will find your experience here exhilarating and rewarding — as have so many generations of Colgate students before you.

If we can be of help in any way, please let us know.

Sincerely,

Gary L. Ross

Vice President and Dean of Admission and Financial Aid

We were delighted to read about your tradition of your family library, and we are excited for you to build new traditions with your Colgate family. Welcome to the Class of 2022, [REDACTED]
